

CURRICULUM VITAE

Tingshuang Yi

Current position:

Professor/PI for Plant phylogenetics and evolution group

Deputy director of Germplasm Bank of Wild Species, Kunming Institute of Botany,
Chinese Academy of Sciences

Member of 12nd academic committee of Kunming Institute of Botany, CAS; Member
of fifth degree evaluation committee of Kunming Institute of Botany, CAS

The Germplasm Bank of Wild Species, Kunming Institute of Botany, Chinese
Academy of Sciences

Address: No. 132, Lanhei Road, Kunming 650201, Yunnan, P. R. China

Tel: (86)-871-5223044

Fax: (86)-871-5217791

E-mail: tingshuangyi@mail.kib.ac.cn

Website: <http://people.ucas.edu.cn/~tys?language=en>

Ting-Shuang Yi, professor of Germplasm Bank of Wild Species, Kunming Institute of Botany, Chinese Academy of Sciences, PI of Plant Phylogenetics and Evolution Group, deputy director of Germplasm Bank of Wild Species, China.

Ting-Shuang Yi's group is mainly conducting researches on plant molecular phylogenetics and evolution and reconstructing the “iFlora” platform. In collaboration with colleagues, we firstly proposed the development of the next-generation Flora, or iFlora. The group has developed the plastome assembly (GetOrganelle) and annotation (PGA) toolkits, which have been widely used and play a key role on plastid phylogenomics; carried out researches on molecular phylogenetics and evolution of angiosperms, gymnosperms, especially the nitrogen-fixation clade, achieved a series of research results on the reconstruction of tree of life, species diversification, evolution of key traits, and genome diversification in these groups. The group has published more than 80 research articles, some of them are published in *Molecular Plant*, *Nature Plants*, *Genome Biology*, *Systematic Biology*, *New Phytologist*. Ting-shuang Yi is editor in chief for the chapter 20 of “Plants of China, a

companion to the Flora of China”, 13 families of “A Dictionary of the Families and Genera of Chinese Vascular Plants”, 13 families of “The Families and Genera of Chinese Vascular Plants”, pages 305–409 of “Plant Systematics: A Phylogenetic Approach”. The group has undertaken 25 grants including the Strategic Priority Research Program of Chinese Academy of Sciences, the Science and Technology Basic Resources Investigation Program of China, the National Natural Science Foundation of China, the key international (regional) cooperative research project, the Large-scale Scientific Facilities of the Chinese Academy of Sciences.

Education:

- 1996 B.S. Biology, Shandong Normal University, Shandong, China.
1999 M.S. Plant physiology, Kunming Institute of Botany, Chinese Academy of Sciences, Yunnan, China.
2002 Ph. D. Plant Evolution and Biogeography, Kunming Institute of Botany, Chinese Academy of Sciences, Yunnan, China.

Academic and Research Experience:

- 2011.5– Professor, the Germplasm Bank of Wild Species, Kunming Institute of Botany, Chinese Academy of Sciences, Yunnan 650204, China
2006.10–2011.5 Associate Professor, the Germplasm Bank of Wild Species, Kunming Institute of Botany, Chinese Academy of Sciences, Yunnan 650204, China
2006.8–2006.9 Visitor, Department of Botany, National Museum of Natural History, Smithsonian Institution, Washington, D.C. 20013-7012, USA.
2004.11–2006.7 Postdoctoral associate, Department of Biological Sciences, University of Pittsburgh, Pittsburgh, PA15260, USA. Advisor: Dr. Susan Kalisz.
2002.11–2004.11 Postdoctoral associate, Department of Botany, Field Museum of Natural History, Chicago, IL, USA. Advisor: Dr. Jun Wen.

Research Interests

1. Plant phylogenomics

Reconstruct phylogenetic tree of seed plants, especially the nitrogen-fixation clade (Fabales, Rosales, Fagales and Cucurbitales), infer the phylogenetic relationships among major clades, determine the classification category of major

clades. Explore the origin of diversification of traits including fruits, nitrogen fixation on the phylogenetic scheme.

2. Plant diversification

Explore the origin and formation of distribution pattern integrating fossils, paleogeology and palaeoecology and the reconstructed trees. Explore the effects of acquisition of novo traits, capacity of colonizing new habitat, polyploidization on species diversification.

3. Construction of iFlora

Build the iFlora of Chinese vascular plants. Basing on the currently available eFlora and combining this with elements of next generation sequencing techniques, DNA sequence data, geographical information system data and computer information technology, with a series of key technological innovations and integrations, the next generation Flora (iFlora) is to construct the next generation Flora, which will fulfill the function of accurately and rapidly identifying species and acquiring species related digital information.

Chaired and Participated Grants:

2020.09.01–2023.06.30. Director or a subproject of the Strategic Priority Research

Program of Chinese Academy of Sciences (¥2,213,100; Grant No.

XDB31010100) f.

2020.01.01–2024.12.31. Director for a subproject of the Science and Technology

Basic Resources Investigation Program of China (¥1,750,000; Grant No.

2019FY100900).

2018.07.01–2023.06.30. Director for a subproject of the Strategic Priority Research

Program of Chinese Academy of Sciences (¥4,000,000; Grant No.

XDB31010102).

2019.01.01–2023.12.31. Codirector for the Yunling International Highend Experts

Programme of Yunnan Province (¥1,000,000; Grant No.

YNQR-GDWG-2018-012).

2018.01.01–2022.12.31. Codirector for the Yunling International Highend Experts

Programme of Yunnan Province (¥1,000,000; Grant No.

YNQR-GDWG-2017-002).

2017.07.01–2018.07.31. Director for a subproject of the Strategic Priority Research Program of the Chinese Academy of Sciences (¥700,000; Grant No. XDPB0201).

2018.01.01–2022.12.31. Director for the National Natural Science Foundation of China, key international (regional) cooperative research project (¥2,852,000; Grant No. No.31720103903).

2018.01.01–2022.12.31. Director for a subproject of the Large-scale Scientific Facilities of the Chinese Academy of Sciences (¥3,350,000; Grant No. 2017-LSF-GBOWS-02).

2017.05.01–2018.06.30. Director for a subproject of the Biodiversity Conservation Program of Ministry of Environmental Protection of the People’s Republic of China (¥300,000).

2016.05.01–2017.05.31. Director for a subproject of the Biodiversity Conservation Program of Ministry of Environmental Protection of the People’s Republic of China (¥400,000).

2018.01.01–2022.12.31. Participant of the The National Key Basic Research Programme of China (¥1,200,000; Grant No. 2014CB954100).

2013.01.01–2015.12.31. Director for A Jointly-Supported project by Sino-African Joint Research Center, Chinese Academy of Sciences (¥1,000,000; Grant No. SAJC201302).

2013.01.01–2017.12.31. Director for a subproject of the National Science and Technology on Basic Research Programme (¥1,200,000; Grant No. 2013FY112600).

2013.01.01–2015.12.31. Director for the Technology Innovation Cross and Cooperation Team of Chinese Academy of Sciences Science (¥1,000,000; Grant No. 2013FY112600).

2013.01.01–2016.12.31. Director for the National Natural Science Foundation (¥900,000; Grant No. 31270274).

2012.01.01–2015.12.31. Codirector for the National Natural Science Foundation of China Overseas, Hong Kong and Macao Scholars Cooperative Research Fund(¥1,200,000; Grant No. 31129001).

2011.01.01–2013.12.31. Director for the National Natural Science Foundation (¥350,000; Grant No. 31070193).

2009.01.01–2014.12.31. Codirector for the National Natural Science Foundation of China Overseas, Hong Kong and Macao Scholars Cooperative Research Fund(¥200,000; Grant No. 30828001).

2009.01.01–2014.12.31. Participant of a key research project supported by National Natural Science Foundation (¥450,000; Grant No. 40830209).

2008.01.01–2010.12.31. Director for the National Natural Science Foundation (¥300,000; Grant No. 30770138).

Service for Journal and Society:

- Associate editor for *Frontiers in Plant Science*, 2020.01–
- Member of the 13th Council of the Botanical Society of Yunnan province, 2020.11.1–2024.10.31
- Member of 12nd Academic Committee of Kunming Institute of Botany, CAS (2020.6.19–2025.6.18)
- Member of Fifth Degree Evaluation Committee of Kunming Institute of Botany, CAS (2020.7.2–2024.7.1)

Member of the 2nd Science and Technology Committee of the Germplasm Bank of Wild Species, Kunming Institute of Botany, Chinese Academy of Sciences (2020.7.2–2024.7.1)

Member of the 1st Science and Technology Committee of the National Key Wild Plant Germplasm Bank (2020.11.23–2024.11.22)

Honors and Awards:

2012 CAS Wang Kuancheng Award for Outstanding Achievements to Western Scholars

2017 Young academic and technical leaders of Yunnan Province

Meeting and Academic Reports:

Tingshuang Yi, 2016. 5. 4–8. Born Migrators: historical biogeography of cosmopolitan family. A meeting report at International Biogeography Society Special Meeting 2006, Beijing, China.

Tingshuang Yi, 2014. 6.19. The phylogenomics of *Malus*. An academic report at the Missouri Botanic Garden (invited by Libing Zhang).

Tingshuang Yi, 2014.5.15. The Biogeography of North Hemisphere. An academic Report at Shanghai Chenshan Botanical Garden (invited by Prof. Tian Dai-Ke).

Tingshuang Yi, 2013.10. 27–31. Chloroplast capture and genetic diversification in *Osmorhiza* (Apiaceae). A meeting report at 2013 Fifth International Barcode of Life Conference, Kunming, China.

Tingshuang Yi, 2011.11.14–12.1. Phylogeny and historical biogeography of *Pistacia* (Anacardiaceae) as inferred from multiple nuclear and plastid DNA sets. A meeting report at Symposium on biodiversity across the Taiwan Straits, Nantou, Taiwan.

Tingshuang Yi, 2011.10.25–28. Phylogeny and Historical biogeography of *Pistacia*. A meeting report at Symposium on systematic and Evolutionary Botany, Kunming, China.

Tingshuang Yi, 2011.8.19–22. Legume crops and their wild relatives in China. A meeting report at 2011 “the workshop on the global legume diversity assessment”, Fukuoka, Japan.

Tingshuang Yi, 2010. New Frontiers in Systematic and Evolutionary Biology, Beijing.

Tingshuang Yi, Susan Kalisz, 2006. The evolution of *Cycloidea* in *Collinsia* and *Antirrhinum*. A poster presented by Tingshuang Yi at the Evolution 2006 Meetings, Stony Brook, New York

Tingshuang Yi, Allison J. Miller, Jun Wen. 2004. Phylogenetic and biogeographic diversifications of *Rhus* (Anacardiaceae) in the Northern Hemisphere. A poster presented by Jun Wen at the Botany 2004 Meetings, Snowbird, Utah, USA.

Tingshuang Yi, Porter P. Lowry II, Gregory M. Plunkett, Jun Wen, 2003. 7. 26–31. Chromosomal evolution in the Araliaceae. A poster presented at the Botany 2003 meetings, Mobile, Alabama, USA.

International Cooperation and Exchange:

2015.8.17–2015.9.7 Visited the Royal Botanic Garden Edinburgh and the Royal Botanic Garden Kew, England.

2015.5.10–2015.5.30 Visit the University of Johannesburg, South Africa and carried out field work in South Africa.

2014.11.27–12.24 Carried out field work in Australia.

2014.8.24-2014.9.13 Visited the Royal Botanic Garden Edinburgh and the Royal Botanic Garden Kew, England.

2014.6.1–2014.6.31 Visited the California Academy of Sciences, USA, the University of California, USA and the Missouri Botanic Garden, USA.

2013.3.30–2013.4.13 Carried out field work in Lao People's Republic.

2012.10.25–2012.11.25 Carried out field work in Cambodia.

2012.7.10–8.10 Visited the Kyushu University, Japan.

2012.1.6–2012.1.17 Carried out field work in Kenya, National Cheng Kung University.

2009.1.30–2009.4.17 Visitor of the Field Museum, USA.

Collaborators:

De-Zhu Li, Germplasm Bank of Wild Species, Kunming Institute of Botany, Chinese Academy of Sciences.

Jun Wen, Department of Botany, National Museum of Natural History.

Mark W. Chase, Science Directorate, Royal Botanic Gardens.

Douglas E. Soltis, Florida Museum of Natural History, University of Florida.

Pamela S. Soltis, Florida Museum of Natural History, University of Florida.
Stephen A. Smith, Department of Ecology and Evolutionary Biology and Department of Computational Medicine and Bioinformatics, University of Michigan.
Michael J. Moore, Department of Biology, Oberlin College
Peter W. Fritsch, Botanical Research Institute of Texas.

Training postdoctors:

Gregory Stull: Start from 2019.9–
Oyebanji Oyetola: start from 2021.9–

Trained postdoctor:

Lei Xie: graduated at 2014; now associate professor of Beijing Forest University
Rong Zhang: Start from 2019.9–2022.1; now associate professor of Kunming Institute of Botany, CAS

Training Ph.D. students:

China: Shuiyin Liu, Qin Tian, Siyun Chen, Chenxuan Yang, Yunxia Li, Wei Gu, Rahaingoson Fabien Robert

Training master students:

Zixun Wang; Qing Lu; Dingjie Wang

Graduated Ph.D. students:

Yingying Yang: graduated at 2021.12; postdoctor at Beijing University
Oyebanji Oyetola: graduated at 2021.9; postdoctor of Kunming Institute of Botany, CAS
Lei Zhao (co-director with prof. Dezu Li): graduated at 2020; research assistant in Kunming Institute of Botany, CAS
Rong Zhang: graduated at 2020; associate professor of Kunming Institute of Botany, CAS
Jianjun Jin: graduated at 2018; postdoctor at Columbia University
Xiaojian Qu: graduated at 2017; associate professor of Shandong Normal University

Yinhuan Wang (co-director with prof. Hong Wang; prof. Dezhu Li): graduated at 2017; lecturer in Chongqing Normal University

Hafiz Muhammad Warris (co-director with prof. Hong Wang; prof. Dezhu Li): graduated at 2017; assistant professor, Department of Botany, University of Sargodha, Pakistan

Meiqing Yang (co-director with prof. Dezhu Li): graduated at 2013; associate professor of Baotou Medical School of Inner Mongolia University of Science and Technology

Shuilian He (co-director with prof. Dezhu Li): graduated at 2013; associate professor of Yunnan Agriculture University.

Jing Meng (co-director with prof. Dezhu Li): graduated at 2010; associate professor of Yunnan Agriculture University.

Graduated master students:

Xiaogang Fu: graduated at 2021

Wenhui Li: graduated at 2021

Guangfu Zhu: graduated at 2021

Lu Gan: graduated at 2020.

Dongmin Jin: graduated at 2019; Now Ph.D. student in New York University.

Jiajin Wu: graduated at 2018.

Ping Liu: graduated at 2017;

Guihua Jin: graduated at 2014; obtained Ph.D. degree in Kunming Institute of Botany, CAS, now postdoctor in Kunming Institute of Botany, CAS

Xiang Li: graduated at 2011; obtained Ph.D. degree in Max Planck Institute of Chemistry and Ecology, Germany
